

Int And did you ever have any pet lambs or pet pigs or anything?

RM Aye, we'd pet pigs.

Int Right.

RM We used to have pet pigs in a tea chest in the house up beside the fire and they used to be fed with, just with milk in a bottle, you know, and a tit on it and,

Int What size of pigs were they?

RM Och, they were wee pigs and then they'd have been maybe six or seven weeks before they'd have went outside.

Int Right.

RM Maybe up to ten weeks and I mind when people used to be in on their cailey there'd have been two pigs maybe in a box and they'd have sit up in the box, sit up with their two front feet out over the box listening to the whole conversation.

Int I'd love to have seen that.

RM And then whenever they were took out then to be fed, then they - skipped round the floor and said wugh, wugh, you know the way they do there,

Int Uh-huh.

RM and run under the table and all.

Int Uh-huh (XX)

RM But they used to, when people come in at night they just, they never s- done nothing or they, they made no noise or nothing they just sit there with their two front feet out over the edge of the box I- watching from one to the other and listening to every word.
