

27mfm draft programme: talks

[each talk to be allocated a slot of 30 minutes, to include either 5 or 10 minutes for questions]

Adam Albright	Are phonotactically unusual words 'exceptions'?
Abdullah Alfaifi & Stuart Davis	Labiodentalization in Faifi Arabic
Laura Bafile	The representation of ternary stress pattern in Italo-Romance languages
Samir Ben Si Saïd & Tobias Scheer	A representational alternative for lexically-specific phonology
Stefano Canalis	Italian Raddoppiamento Sintattico without moras
Malgorzata Cavar & Steven Lulich	(Re-)Interpreting Place Features in Feature Geometry
Laura Downing	Inside-out dominance patterns in grammatical tone
Laura Faircloth	Measuring emphasis spread in Palestinian Arabic
Daniel Gleim & Hyunjung Lee	Temporarily laryngeal sonorants in Korean
Chris Golston, Peter Guekguezian & Martin Krämer	Yokuts lexically-specific phonology in Direct OT
Mark Hale & Madelyn Kissock	Phonology and phonetics in Sanskrit external sandhi
Yuni Kim	Spreading and correspondence in Huave vowel copy
Björn Köhnlén & Ian Cameron	The influence of consonantal strength on foot assignment in accentual systems
Mohamed Lahrouchi & Shanti Ulfsgjorninn	Asymmetric headedness and licensing constraints in English
Jeffrey Lamontagne & Heather Goad	Evidence of gradient weight and phoneme retention
Nicola Lampitelli, Paolo Roseano & Francesc Torres-Tamarit	Vowel length in Friulian verbs: a case of non-linear morphology in Romance
Emily Lindsay	Metrical patterns in Arabic
Connor Mayer, Travis Major & Mahire Yakup	Wug-testing Uyghur vowel harmony
Aleksei Nazarov	Formalizing the connection between opaque and exceptional generalizations
Max Nelson	Revisiting the abstractness of URs with a learning model of probabilistic representations
Ahmet Bilal Özdemir	Dynamic stress assignment in Turkish
Markus Pöchtrager & Connor Youngberg	Hush-hush: a structural account of vowel devoicing in Japanese
Clàudia Pons-Moll, Francesc Torres-Tamarit & Vlad Martin-Diaconescu	Catalan (im)possible nativizations in the light of Weighted Scalar Constraints
Brandon Prickett & Joe Pater	Learning hidden structure with a Maximum Entropy Grammar
Ruaridh Purse	/t,d/ deletion: articulatory evidence for categoricity does not preclude gradient effects
Ezer Rasin & Jochen Trommer	Allomorph selection and phonology are ordered: evidence from a new universal
Nicholas Rolle	The scope of dominant grammatical tone in Izon
Hannah Sande	Doubly morphologically conditioned phonology in Cophonologies by Phase
Jade Sandstedt	A contrastivist approach to the emergence of sound inventories
Juliet Stanton	Allomorph selection precedes phonology: evidence from Yindjibarndi
Yanyan Sui	Three patterns of morphology in the Jiaoliao Mandarin of Chinese
Kevin Tang & Dinah Baer-Henney	Disentangling L1 and L2 effects in artificial language learning
Nina Topintzi & Katerina Markoulaki	Two geminates, one syllable: Schneider's Law is what happens when you share
Veno Volenec & Charles Reiss	Place assimilation of sibilant fricatives in Logical Phonology
Draga Zec & Elizabeth Zsiga	Serbian pitch accent from a cross-dialectal perspective: evidence for a domain-generalization effect
Eva Zimmermann	First come – first served: the serial interaction of feet and tone

27mfm draft programme: posters

[to be split into two sessions – one on Friday 11.00-12.30, one on Saturday 11.00-12.30]

Obied Al-Aqlobi & Sam Hellmuth	Diagnosis of vowel intrusion versus vowel epenthesis in two Arabic dialects
Samuel Andersson, Ollie Sayeed, Bridget Samuels & Bert Vaux	Conspiracies in California: a reconsideration of Yokuts
Eirini Apostolopoulou & Giorgos Markopoulos	Is free variation always free? Evidence from Greek, Italian, and Hebrew
Tommaso Balsemin	Final obstruent devoicing and vowel length in northern Italo-Romance varieties
Mike Berger	Shortening and lengthening via moraic down-affixes in Shilluk
Margit Bowler & Jesse Zymet	A count effect in Warlpiri vowel harmony
Alex Chabot	Phonological computation and non-symbolic representations are a part of FLN
Megan Crowhurst, Laura Faircloth, Allison Wetterlin & Linda Wheeldon	Markedness and the learning of e/e and e/-e stress patterns
Quentin Dabouis & Jean-Michel Fournier	On the role of morphology, syllable structure, frequency and spelling in English vowel reduction
Mirella De Sisto	Rhyming with unstressed syllables: demonstrating the English prosodic foot in verse
B. Elan Dresher & Iryna Osadcha	Mobile lexical parentheses in metrical grids
Guillaume Enguehard & Mohamed Lahrouchi	Do branching onsets need specific representations?
Boer Fu	Contrast preservation and maximization in Mandarin <i>r</i> -suffixation
Pétur Helgason & Catherine Ringen	Voicing and voice assimilation in Swedish fricatives
Shay Hucklebridge	Slave coalescence as gradual coda reduction
Jongho Jun	Morphophonological gradience in Korean <i>n</i> -insertion
Robin Karlin	Extending the articulatory model of tone: the case of Valjevo Serbian
Joachim Kokkermans	A typological model of sibilant inventories and the principles which shape them
Martin Krämer & Draga Zec	The variable vocalic nature of syllabic consonants
Jeffrey Lamontagne	The emergence of phonemes and phonological contrasts
Nabila Louriz	Structural adaptations in Moroccan Arabic
Filiz Mutlu	You have a neat theory, then [l] turns up
Kuniya Nasukawa & Phillip Backley	Nasality and voicing in a modulated-carrier model of speech
Stephen Nichols	An exploration of vowel-pair frequencies in five-vowel Bantu languages
Elenmari Pletikos Olof & Julian Bradfield	Standard Croatian pitch-accents - theory and practice
Chelsea Sanker	Perceptual cues to coda voicing contrasts
Geoff Schwartz	Representing cross-language differences in the synchronicity of ST clusters
Marko Simonović	Categories, root complexes and default stress: Slovenian nominalisations revisited
Tor Håvard Solhaug	Apical agreement in Norwegian consonant clusters
Michael Stern	Magnet effects in monolingual and bilingual perception
Theodore Stern	An Afrikaans origin hypothesis of the KIN/PIN split in South African English
Sören Tebay	Overwriting and markedness reduction in Nimboran vowel mutation
Ememobong Udoh & Nkereke Essien	Gender-conditioned prosody in English nicknames: a study of Nigerian tertiary institutions
Anthony Yates	Indo-European ablaut and the trap of the leftmost column
Heather Yawney	Derived environment effect of the velar and uvular voicing restriction in Kazakh
Chao Zhou & Silke Hamann	A formal account of how L1-Mandarin learners treat the L2 Portuguese rhotic
Yuhong Zhu	Exceptions to left-dominance? A metrical analysis of light-initial tone sandhi in Suzhou
