

## 30fm draft programme: **talks**

[each talk to be allocated a slot of 30 minutes, to include either 5 or 10 minutes for questions]

Joshua Booth	Prosodic asymmetries between simple and special clitics in German
Karolina Broś & Peter Krause	Motion capture evidence for containment in Spanish stop lenition
Rui Cai, Paul Boersma, Katherine Demuth, Ivan Yuen & Titia Benders	Prosodic clitics in English children's speech production – an acoustic study
Małgorzata Cavar, Bartłomiej Czaplicki & Paula Orzechowska	Effects of morphology on consonant assimilation: evidence from ultrasound imaging
Alex Chabot	Vowel reduction in European Portuguese: virtual length and Substance-Free Phonology
Jian Cui	Front-back asymmetry in Bantu vowel harmony: representations and constraints
Quentin Dabouis	Morphological gradience in phonology
Noam Faust & Tobias Scheer	Ghost /ə/ and its manifestations in the French Croissant
Guilherme Garcia & Heather Goad	The plausibility of feet in two stress languages
Chris Golston, Zach Metzler, Alec Chan-Golston & Michael Shepherd	Accounting for Pauses-in-Clauses
Pavel Iosad	A metrical approach to ternarity in Northern European accentual contrasts
Farhat Jabeen	Variable prosodic phrasing of multiple wh-questions in semi-spontaneous Urdu
Hailang Jiang	Utterance-final high vowel diphthongization in Chongqing Mandarin
Yuni Kim & Savio Meyase	Intricate coda restrictions in loanwords of Tenyidie, an otherwise codaless language
Björn Köhnlein & Oscar Coppola	Towards a theory of metrical faithfulness
Chunzi Li & Regine Lai	Learning long-distance consonant assimilation
Katie McCann	Phonological exceptions are morphotactic exceptions given phonological underspecification
Ekaterina Medvedeva	Morpheme dominance instead of cyclicity
Gloria Mellesmoen	Expanding the inventory of mora affixation: diminutive reduplication in Lillooet
Benjamin Molineaux	'Nice' palatals and 'nasty' dentals: affect marking and the structure of Mapudungun coronal consonants
Donald Morrison	Prothetic consonants and abstract phonological structure in Scottish Gaelic
Claudia Perez Herrera	The Spanish high-mid alternation is strictly phonological
Renate Raffelsiefen	Precariousness as evidence for constraints on prosodic structure
Péter Rebrus, Péter Szigetvári & Miklós Törkenczy	Proliferation of allomorphy induced by harmonic asymmetry: a case of overabundance
Charles Redmon, Aditi Lahiri & Frans Plank	The prosodic structure of Germanic mis-: diachrony and synchrony
Ranjan Sen	Dual morphosyntactic conditioning and the life cycle: Latin iambic shortening
David Shanks	The status of full and reduced vowels in Southern Tutchone (Dene)
Elizabeth Sola-Llonch & Lily Xu	Avoidance of t-sibilant sequences is general in Hebrew, but repair is morpheme-specific
Juliet Stanton	Nasal consonant epenthesis in Noon
Patrycja Strycharczuk, Sam Kirkham, Emily Gorman & Takayuki Nagamine	On the phonological representation of English diphthong vowels
Soeren Tebay	Kinande Tone as layered and gradient
Francesc Torres-Tamarit	Stress in Spanish: an analysis using layered feet
Jochen Trommer	Dominance meets ghost vowels: Moses-Columbia Salish accent revisited
Shanti Ulfsbjorninn & Nancy Kula	Vowel lengthening, hiatus avoidance and floating consonants as a keyhole to pseudo-allomorphy in C20 Bantu from a Strict CV perspective
Marina Vigário	Is the foot a prosodic domain in European Portuguese?
Danfeng Wu	Prosodic evidence for the recursive prosodic structure of corrective but sentences
Eva Zimmermann	Morphological asymmetries as a result of cyclic optimization: Hidatsa as an argument for Harmonic Layer Theory
Fabian Zuk	The  A ffrication of the Early-French velar. If  I  would allow it,  U  wouldn't.

### 30mfm draft programme: posters

[to be split into three sessions – Thursday 3.15-4.15, Friday 11.30-12.30, and Saturday 11.30-12.30]

Mohammed Al-Ariqy & Ayman Alrajhi	Definiteness in Qassimi Arabic: a change in progress
Abdullah Alfaifi & Stuart Davis	Left edge word stress in Faifi Arabic
Paul Boersma	Morpheme Structure Constraints: non-existent, an exceptional residue, or ubiquitous?
Julian Bradfield	Revisiting computational complexity in phonology
Andrea Brugnoli	The influence of syllable weight on primary and secondary stress in German
Faith Chiu, Laura Bartoseviciute, Albert Lee & Yujia Yao	The perception of acoustically distorted speech produced with multilingual multi-talker environments
Chenming Gao	Morpheme boundaries and locality in Dagur rounding harmony
Jane Gilbert	Toward a description of ingressive speech usage in contemporary French
Natália Brambatti Guzzo & Guilherme Garcia	Cue interaction and the representation of stress in language contact
Mark Hale & Madelyn Kisson	Epenthesis, deletion and markedness
Reem Hazi & Vladimir Kulikov	F2 and VOT in the emphasis contrast in four Arabic Dialects
Niamh Kelly	The acoustic correlates of stress and pharyngealisation in Palestinian Arabic
Mohamed Lahrouchi	Word Minimality, weight and sensitivity to onsets in French hypocoristics
Jeffrey Lamontagne	Prosodic and phonotactic conditioning of high-vowel deletion in Quebec French
Hyunjin Lee	A phonetic comparison of lexical /ɨ/ and epenthetic /ɨ/ in Korean naturalistic speech
Nabila Louriz	Onset is on set
Keneilwe Matlhaku	Nasal-consonant sequences in Setswana (Tswana)
Jahnavi Narkar	Laryngeal realist representations in Bengali
Kuniya Nasukawa & Shin-ichi Tanaka	Vowel metathesis without precedence relations
Péter Óri	Laryngeal dissimilation supports the markedness of voicelessness
Andreas Pankau	A bisegmental representation for ambisyllabic consonants in Dutch and German
Prithivi Pattanayak	Strength resolves the degrees of tonal overwriting in Asante Twi
Markus Pöchtrager	Yoruba vowels, openness, and [-ATR]
Michael Ramsammy & George Sakr	Spanish /x/-fronting: gradient or categorical?
Michela Russo	French liaison and the way it ‘moves’. The view from floating ‘-fix’ and beyond
Geoff Schwartz, Zuzanna Cal, Kamil Kaźmierski & Ewelina Wojtkowiak	Perceptual vowel deletion in Polish phonotactic perception
Shu-hao Shih	On the influence of inherent vowel property in stress perception
Jian-Leat Siah	Learnability of prosodic end-weight effect in Malay echo reduplication
John Starr, Marten van Schijndel & Helena Aparicio	The relationship between phonological viability and syntactic complexity
Daan van Soeren	<i>Yo creo que fue un sá...</i> Spanish stress and word recognition
Veno Volenec & Johanna Benz	Two logical operations underlie all major types of segmental alternations
Natalie Weber	Sources of paradigm uniformity in Káinai Blackfoot nouns
Chen Xie	Stress, tone, and prosodic word in Wenzhounese
Chao Zhou & João Veríssimo	Testing OCP and Tonal Markedness Scale in L2 tonal perception
